SDM120D-MID - Summary Sheet

Summary

The SDM120D-MID is the best value MID approved meter on the market. The lightweight 45 Amp DIN rail meter is only 18mm wide, just larger than a single DIN-Rail module.

It displays energy (kWh) on it's LCD screen or mechanical display (SDM120A-MID) and comes with a single pulse output.

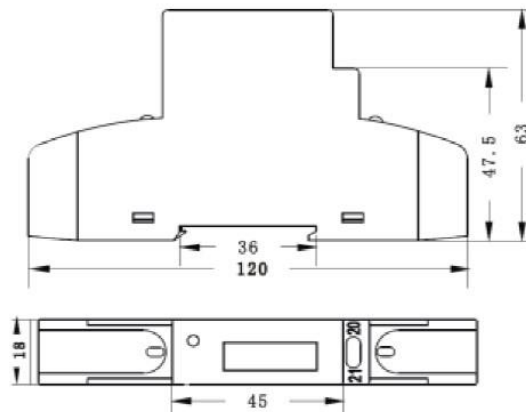

N.B. This meter can be fitted into a DIN Rail enclosure.

If back light display is required SDM120DB-MID

*SDM120D-Modbus

Product Code	SDM120D-MID
Meter Type	Single Phase Meter
Fitting Type	DIN Rail
Max Current (Amps)	45
MID Approved	Yes
Smart	No
Input Type	Direct Connection
Output Type	Pulse/Modbus*
Tariffs	Single
Import / Export	Import Only
Module Width	1
Availability	Next Day
Condition	New
Brand	Eastron
Country of Manufacture	China
